

INDIAN TRADE CREDIT INFORMATION BUSINESS

RECOVER DEBT

Understand trade collections risk, optimize your collection strategy, and gain more knowledge of the trader's risk profile

Collect with Confidence without Fear

Solutions that enable businesses to understand trade collections risk and optimize their collection strategy, and help to gain more knowledge of trader's risk profile. Monitor collections risk more effectively and understand your customer's credit behaviour better with data, and scorecards that enable increased engagement, and equip your business with deeper visibility into trader's credit risk profile.

Solution Overview

ITCIB Alerts provides ability to proactively determine a set of existing traders who are showing either improvement or deterioration in trade credit status, enabling businesses to undertake different trade credit actions.

- Enables increased collections productivity and reduced cost of monitoring high-risk accounts
- Payment delay and Collection updates empowers businesses proactively detecting existing traders who are showing changes in their trade credit status
